James Muhoro

Fullstack Software Developer

✉ muhorojames7@gmail.com   📞 +254743301115   🏠 jamesmuhoro.netlify.app   ⧉ github.com/techmuhoro

🎓 EDUCATION

Multimedia University of Kenya   **Sept 2017 - Dec 2021**

- **Certificate:** Bachelors degree in software engineering
- **Grade:** Second class honours (upper division)
- **Courses:** Algorithms & data structures, database management, web programming, OOP, User Interface design

💼 WORK EXPERIENCE

Techtenum minds   **Jan 2022 - May 2022**

- Wrote highly interactive and quality front-end applications for the company's three software projects using a modern technologies such as Next.js and GraqhQl.
- Optimized and increased the speed of the front-end application by implementing GraphQL caching algorithms. Also implemented features such as Server-side rendering to increase both speed and SEO
- Authored highly reusable React components which were utilized across the company's three projects. This was achieved by implementing a component library that ensured certain components were developed independent of the application to improve reusability and consistency.
- The development team was remote and hence gained experience on how to effectively work in a team

Kenyatta National Hospital   **Jan 2021 - April 2022**

- Collaborated with a team of developers to make an application that would simplify the process of applying, processing, and recruitment of medical students who wished to intern at the institution
- Came up with an elegant design for the Automated recruitment project
- Tested sites in various browsers and devices to ensure cross-browser compatibility and mobile responsiveness

⑃ PROJECTS

PERSONAL WEBSITE: https://jamesmuhoro.netlify.app/ (For all projects and addition information)

1. **Mental health awareness template** - https://mental-wellness.netlify.app/
2. **Doctor's portfolio site** - https://doctor-mary.netlify.app/
3. **Simpified Food ordering web app**
4. **Calendly clone** - https://calendly.netlify.app/

📐 SKILLS

PROGRAMMING LANGUAGES: Javascript(ES6), Typescript, CSS, HTML, GraphQL, Python

FRAMEWORKS & LIBRARIES: React/Next.js, Express.js, Laravel, Django, Gatsby, Node.js, Google maps.

TOOLS & PLATFORMS: Git & Gitbub, Netlify, Linux, Webpack, Docker.

⛵ INTEREST

Travelling   Reading   Hiking   Swimming
